

Standard / Solid Vents

Scientific Plastics Company, Inc. manufactures a variety of flexible and solid venting systems for use with acids, solvents and other hazardous chemicals. Our venting systems meet the same ASTM standards as our corrosion resistant polyolefin piping. Let us customize a venting system to meet your specific needs.

Choose from a variety of styles and types:

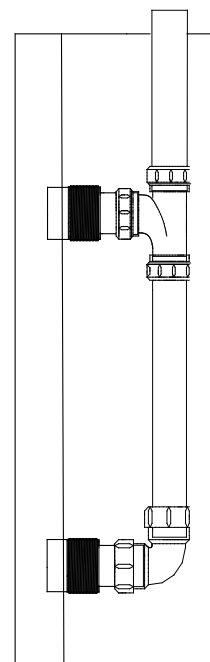

- Solid vents with mechanical joints
- Flex vents with mechanical joints

Typical Standard Vents

Product No.	Description
F160L06XF-150	Special double acid vent, flexible
F160L06X-150	Double acid vent, 1-1/2"
F160L060-150	Acid cabinet vent
F160I062-150	Acent vent, ADA
F160L90-150	Standard solvent vent, 1-1/2"
F160L064F-150	Flexible solvent vent, 1-1/2"
F160L79E-150	Double acid vent with spacer
HA38590-150	Flex acid vent
LC38549-150	Single solvent flex
W38546-150	Solvent vent assembly, (to ductwork)
W38549-150	Double solvent flex
W38551-150	Tall solvent cabinet, double
W38552-150	Vacuum pump vent
W38570-150	Single acid fume hood vent connection
