

Double Bowl Waste Assembly  
(Side Drain With Adjustable Riser Trap - Bottle)

This double-bowl assembly offers up to 15-1/2" adjustability between tailpiece centers. Extensions available for longer centers. A central baffle prevents crossflow of waste to opposite branches. Offer full flow drainage with minimum drop to trap. Inlets are 1-1/2" NPS loose nut and outlet is 1-1/2" NPS thread. Color is white.
